ACOM's MICR Kit Solutions enable companies to generate checks in-house, using standard office model Xerox DocuPrint N Series Laser Printers.

The MICR kits are available in two versions (Level One & Level Two) - both versions allow companies to begin producing MICR laser checks immediately. The MICR kit includes the MICR toner cartridge, MICR font, MICR gauge, 200 sheets of blank safety-check stock, and MICR documentation. ACOM guarantees the quality of the MICR font, MICR toner and the blank safety-check stock for the designated printer.

ACOM's MICR kits will enable companies to dispense with conventional check processing methods, and enter the efficient world of MICR laser check processing quickly and affordably. In addition, companies will expand the value of their company's existing Xerox DocuPrint N Series Laser printers.

ACOM's MICR Laser Payment Processing Solutions include:
- Your choice(s) of 7 different MICR-enhanced DocuPrint N Series Laser Printers with production speeds from 20 ppm to 45 ppm;
