

Create, print and automate industry standard barcode and label production for every business need

EZeDocs/400 eLabels

From barcodes and labels to document customization on-demand for any business requirement, eLabels delivers printing performance, flexibility and true cost savings for organizations using EZeDocs/400 output management

System i/AS400 Label printing simplified

- ✓ Print labels in custom sizes and shapes for inventory, shipping, pricing, compliance, pallets and more
- ✓ Generates industry-standard barcode types including UPC, 3 of 9, Postnet, Code 128, & many more
- ✓ Support of thermal transfer & multi-up format laser labels, & labels with or without humanly readable fonts
- ✓ Great documentation plus quality support for printing label templates and customized labels in no time.
- ✓ Integrates with your System i/AS400 programs with no need of downloading data to other platforms.
- ✓ Parallel attachment via PC support or client access from your IBM system direct or remote.
- ✓ Full network connectivity and print sharing with PC/LAN applications supported.

Performance and value with no need of maintaining pre-printed label inventory

No need for embedded barcode printer fonts or print outsourcing

Laser and thermal printing improve speed & efficiency over impact printing devices

Enables design changes to documents in a matter of minutes
